

# GENERAL DEGREE REQUIREMENTS

## Major and Minor Declaration

A student's major is declared upon admission to the University and/or by meeting with an academic advisor and submitting a Major/Minor Declaration and Change Form. Students selecting a major that contains program admission requirements must have the appropriate academic department approval. The student may be subject to pre-admittance until program admission requirements are met (pre-major). Program admission requirements may be viewed on each department's website or within this catalog.

A minor may be declared and attached to a student's major by meeting with an academic advisor and submitting a Major/Minor Declaration and Change Form.

A student's major or minor may be updated at any point during the student's academic career by meeting with an academic advisor and submitting a Major/Minor Declaration and Change Form. It is recommended that a final declaration of major is made prior to a student earning 60 credit hours.

The Missouri Western catalog is valid August through July. The university catalog that is in effect for the term the student is initially admitted or subsequently declares will determine the course requirements for each major or minor. A bachelor degree program will remain in effect for no more than six years from the term of declaration. Pre-admission into a bachelor degree program (pre-major), a certificate and a microcredential each have a three year time-frame to complete the requirements. Students are responsible for meeting all major, minor, degree and state certification requirements and should work closely with their advisor to ensure those requirements are met. If certification, accreditation or statutory requirements change and additional requirements become effective during the time a student is enrolled in a program, the new requirements take precedence over previously existing degree or certification standards.

## Transfer Programs

Preprofessional is a category for students who intend to enter a professional school after graduating with their bachelor's degrees or to transfer to another university for the completion of their studies. Students choosing preprofessional studies should select a transfer institution early and should work closely with their academic advisor. The following areas are those in which most students concerned with transfer programs express an interest: architecture, dentistry, engineering, journalism, law, medicine, optometry, pharmacy, physical therapy, veterinary medicine. These are not majors. They are officially recognized areas of academic interest. Identifying your pre-professional interest will enable your academic advisor to provide you with a wide range of support to realize your goals.

Missouri Western State University participates in professional school programs that allow students to use credit from their professional school for credit at MWSU. The following guidelines must be followed:

1. MWSU will accept a maximum of 30 semester credit hours earned in a professional school as credit toward the baccalaureate degree and thus waive the resident requirement for graduation.
2. General education requirements must be completed before the student transfers to the professional school.
3. Degree requirements in the student's major field for the baccalaureate degree must be substantially completed at Missouri Western State University with limited substitutions from the professional program as approved by the department.
4. The last 60 credit hours prior to the professional school transfer must have been completed at MWSU.
5. MWSU will grant the baccalaureate degree with written verification from the professional school upon the student's completion of the necessary coursework.

Missouri Western students have the opportunity to be selected for participation in one of four Medical School Admissions Programs which partner with MWSU: A.T. Still University's Kirksville College of Osteopathic Medicine, Kansas City University of Medicine and Biosciences, Palmer College of Chiropractic, University of Missouri-Columbia, School of Medicine and University of Missouri-Kansas City, School of Medicine. Detailed information on these programs can be found within Biology Department.
