STUDY ABROAD/STUDY AWAY

Missouri Western State University believes a student can enhance their university experience by participating in a study abroad or study away program while progressing toward their degree. There are several faculty-led trips offered each year by Missouri Western faculty. They each involve high-impact experiential learning where the student is able to earn academic credits in a new culture, acquire global skills and gain personal and professional opportunities. The Griffon Office of Applied Learning (GOAL) advises and directs current efforts in these areas.

GOAL is located in Eder 221 and may be reached at (816) 271-4668, goal@missouriwestern.edu.
