The Bachelor of Science in Technology degree is designed for the student who has :

- an A.A.S. or A.S. from a regionally accredited college or university; or
- a minimum of 30 credit hours in applied coursework from a regionally accredited college or university; or
- a minimum of 30 credit hours in military training[1] as recommended by the American Council of Education; or
- a minimum of 30 credit hours from a combination of applied coursework and military training[1] as referenced above.

This bachelor's degree requires an additional concentration in an approved area of study to create the student's Custom Major.

[1] According to the Non-Traditional Credit policy, a maximum of 30 credit hours of military training coursework (recorded on a DD214 or Joint Services transcript) will count toward the 120 overall credit hours required for a bachelor's degree.

Requirements

Students who choose this bachelor degree program will have no more than 6 years from admission or subsequent declaration to meet the requirements listed below. If certification, accreditation or statutory requirements change and additional requirements become effective during this time, the new requirements take precedence.
