TECHNOLOGY SERVICES

Technology Services, located in Hearnes Center Room 150, supports the diverse technology needs of Missouri Western's students, employees and visitors. Technology Services provides centralized administrative computer services, programming, networking, information security and cloud services for the university. Through the Office of Institutional Research, Technology Services serves the university's mission by analyzing institutional data essential for mandatory reporting, strategic planning, decision making and policy development. A centralized helpdesk provides support for office computing, classroom technology and campus computer labs.

The Technology Services Help Desk is available at (816) 271-4555; further information may be found at here (https://missouriwestern.edu/techservices/).
